Dear Knitter,

We are proud to present the publication of a new book by Debbie Zawinski.

*In the Footsteps of Sheep: Tales of a Journey through Scotland, Walking, Spinning, and Knitting Socks* is a wonderfully illustrated travel adventure through Scotland, with 11 original sock patterns included. *In the Footsteps of Sheep* captivated us from the first glance at its striking photographs and the author's beguiling prose.

Through the course of a summer, Debbie, a Welsh-born Scot, travels to all corners of Scotland to personally gather fleece from 10 Scottish sheep breeds. A longtime spinner and knitter, Debbie designs and knits socks to reflect the characteristics of each breed and the spirit of her journeys.

She writes beautifully and movingly about her travels; the landscapes explored, the sheep and people she meets, weather both foul and fair, and an intriguing island of feral sheep. Debbie has a real connection to the land, its people and animals, magnified by her main method of travel: on foot, with tent, spinning stick and needles packed in her rucksack. Available mid-October, \$26.95, 192pp, softcover.
