

EZ's Green Sweater corrections, Jan 2010

Dear Knitter,

We have found some errors as well as misleading information in *EZ's Green Sweater* instructions. Please print this PDF and insert it into your leaflet. You only need this correction if your leaflet has a red border and red schoolhouse logo on the cover. The corrected version has a green logo and border. The bold red text below has been amended. We apologize for the mistakes.

- **Size: 36" (40", 44", 48"), 3/4-sleeve length**

- **Row 13 (WS): Purl. Turn. Repeat Rows 12 & 13 a total of 5 times [190 (210, 230, 250) sts]. These increased sts produce the front facings which will fold under later.**

Cut Steeks (page 2)

You now have four steeks: main body, neckline, two sleeves. Secure and cut all steeks using the Sewing Machine (*see page 4*) or Crochet. Fold the cut steeks to the inside and stitch them down using sweater wool or sewing thread. **On each side of main body, fold under steek (2-1/2 sts) plus an additional 5 sts, so mitred edges meet at lower corner.**

Knit Sleeves

Put 31 sts (from underarm waste yarn) onto your working needle and knit them, **pm**. Knit-up (*see page 4*) approximately 3 sts for every 4 rows around the armhole, **pm**. (Depending upon your row gauge, you may have between 130 and **180** sts.) Join to knit sleeve in the round and begin **underarm** gusset decreases as follows:

Round 1: K1, ssk, **k25**, k2tog, k2, ssk, knit until 3 sts remain, k2tog, k1. You are working 'k2tog, k2, ssk' at each of the marked corner points.

Round 2: Knit.

Repeat Rounds 1 & 2 a total of 6 times. The sets of decreases get closer together each time you work Round 1. **(Round 3: k1, ssk, k23..., continue as established.)**

Now mark the **two center-top** sleeve sts.

Round 13: Continue gusset decreases as established, and begin decreasing at top of sleeve also (k2tog, k2, ssk). You are decreasing 6 sts with each repeat of this round.

Round 14: Knit.

Repeat Rounds 13 & 14 **until 11 sts remain** between the underarm markers. **Stop gusset decreasing. Place a marker at center underarm.**

Continue sleeve, decreasing every other round at the top of sleeve as established, until **approx.** 41 sts remain. **For longer sleeves, after a few decreases, reduce the decrease rate to every 3rd round.**
